

Design and Construction of Emergency Safety Eye Wash.

About This Project:

Emergency Safety Eye Wash This is a system that can be widely used in various factories such as chemical factory, medicine factory, and garment factory. If a worker goes to work & puts a dust in his eye, then he can immediately wash his eyes completely automatically. This automatic operation is accomplished with a sensor. This is a very effective system.

Advantages:

- Automatic eye wash.
- Safe eye from chemical reaction.
- Do not waste time.
- Very Cost Effective.
- Very fast sorting can be done.
- Physical power is not wasted.
- More accuracy.

Applications:

It can be used in various places for emergency eye wash such as...

1. Chemical industry.
2. Medicine factory.
3. Garments factory.
4. Can be used at home.
5. Its can be used in Hospital.
6. Chemical laboratories.
7. In a word its can be used everywhere for emergency eye wash.

N.B: *Any modification of this project can be done as per your requirement. We will make the project according to your needs. Contact us with your any innovative engineering projects idea. We will help you to implement your project.*
